

# System Syn, Premeditated

he didn't set up the rhyme with meaningless words  
as you predicted, or assumed  
everything was calculated  
every words had purpose  
just not always on the surface  
but you couldn't look below  
life is fast when you're shallow  
but for some of us it moves too slow

he has entire conversations with many different people  
but they never leave his paper  
there are books of lost intentions  
and premeditated action  
a prediction for your equal and opposite  
how accurate  
how frightening  
how frightening  
though the rhyme was not set up  
and the words fell on your surface  
the painting was so perfect  
and now everybody knows  
so shallow  
so far below  
and everybody knows
