

# Systematic, Glass Jaw

It never threw me like this  
ignored  
A head buried in the sand  
to retort.

If it ever came down

To be a man

Or break my fall

Peel back the skin again

So I know.

And I wait, and I wait, to live this damn thing out

And I wait, and I wait, to be the thing I never was before.

A head case

I can't refrain

All of my flaws

Rebound

Or rationalize

Just to stall

Well, I'm well aware

And I think you care

From your easy chair

Remission is all

that I can't afford.

And I wait, and I wait, to live this damn thing out

And I wait, and I wait, to be the thing I never was

And I wait, and I wait, to live this damn thing out

And I wait, and I wait, to be the thing I never was before.

And I wait, and I wait, to live this damn thing out

And I wait, and I wait, to be the thing I never was

And I wait, and I wait, to live this damn thing out

And I wait, and I wait, to be the thing I never was before.
