

SZA, Supermodel

Leave me lonely for prettier woman
You know I need you to much attention
For shit like that
You know you wrong
For shit like that

I could be your supermodel
If you believe
If you use it in me
See it in me /2x

I didn't see myself
Why I can't stay alone just by myself
Wish I was comfortable just with myself
But I need you
I need you /2x

Just get a load of them
They got chemistry
All the could say
We like brother and sister
Look so good together
Bet, they fucking for real

And the was right
That's why I stayed with ya
The dick was too good
It made me feel good
For temporary love
You was a temporary lover
