

# T'Pau, Nowhere

So pretty in daylight  
So fragile in dark night  
Who's gonna love you now?  
Who make it all right?

You keep pushing a ...  
Keep running to stand still  
Who will you talk to now  
Nobody's listening  
Maybe you'll have to sell your soul  
What ...  
Or will you end up all alone  
Back in the black hole

Keep running form empty live  
...  
Keep back like you just don't care  
Like you never been there  
Just ...  
We don't know where  
Nowhere  
I keep tryin'  
You keep lying  
Nowhere  
Is nowhere at all
