## T. Rex, City Port

City port, city port, city-city-city port I went to the city port City port took my blues away I went to the city port City port took my blues away, yes they did I lost all my city cool When I bought your midget show I grew all debonaire When I had the 1980's air, in your hair That's right I went to the city sight A young love took my soul away Péering eyes and Pérsian skies, removed my eyes And took them right away, took them all away Just like I lost all my city cool When I bought your midget show City Port And it took them, took them all away And it took them, took them all away City Port
