

T. Rex, Find A Little Wood

Find a little wood
And have a little sleep, sleep there
Find a little wood
And have a little sleep, sleep there
Find a little wood
And have a little sleep, sleep there

Like the sun and the sea
You'll soon wash away all cares
Find a little stream
And have a little dream, dream there
Find a little stream
And have a little dream, dream there
Find a little stream
And have a little dream, dream there

Like the windy moon
You'll soon shed all your cares
Oh love is like a beautiful girl who smiles for you
Find a little wood
And have a little sleep, sleep there
Find a little wood
And have a little sleep, sleep there
Find a little wood
And have a little sleep, sleep there

Like the windy moon
You'll soon shed all your cares
Oh love is like a beautiful girl who smiles for you
