

# T. Rex, Precious Star

Like a precious star

Ooh like a precious star you are,  
Ooh like a precious star you are,  
I wanna spend my life with you  
Ooh like a precious star you are,  
And will you love me  
Like you said when we met child  
Ooh like a precious star you are,  
Ooh like a precious star you are

Ooh like the silver moon above  
Is the night right for love,  
Ooh like the silver moon above  
Is the night right for love,  
But will you love me  
Like you said when we met child  
Ooh like a precious star you are,  
Ooh like a precious star you are

Do do do da do da do  
Da do da do da  
Do do do da do da do  
Da do da do da  
I wanna spend my life with you, yeah  
Do do do da do da do  
Da do da do da  
But will you love me  
Like you said when we met child  
Ooh like a precious star you are,  
Ooh like a precious star you are

Like a precious star you are  
Like a precious star you are  
Like a precious star you are  
But will you love me like you said when we met child  
Ooh like a precious star you are,  
Ooh like a precious star you are

Oh yeah Oh yeah Oh yeah, like a precious star you are
