

T. Rex, Token Of My Love

With your stained glass look
Ahh.....

Well do you remember when we met
You stuck behind me like a stained glass net
And I'm broken
Is that a token of your love
Is that a token
A token of your love

Do you remember when we met
You moved behind me like a stained glass net
And I'm broken
Is that a token of your love
Is that a token
A token of your love

Everyday, every single day
My heart is broken,
Oh yeah
Everyday, every single day
Does this mean my love has been awoken

Do you remember when we met
You moved behind me like a stained glass net
And I'm broken
Is that a token of your love
Is that a token
A token of your love

Everyday, every single day
My heart is broken,
Oh yeah
Everyday, every single day
Does this mean my love has been awoken

Do you remember when we met
You moved behind me like a stained glass net
And I'm broken
Is that a token of your love
Is that a token
A token of your love

Is that a token
A token of your love
