Their cruel invasion through the system  
Infection, reaction with human skin  
Sadistic carnage pleasure  
And we're welcoming them in  
Mental hackers came to hijack all  
Wormish races equal zero  
Many light years far from home  
Laser furs adorn this domme  
Fury fell on all mankind  
Expiation men will find  
Primitive voyager turned into ashes  
They laughed at our messages  
No time to scream, no need to repent  
It's the natural solution, it's too late  
They're coming, aliena ferox  
You realize there's no tomorrow  
'Lo legarono ad un palo...  
...e lo evirarono con un colpo di machete...'  
[Umberto Lenzi's "Cannibal Ferox", 1981]  
Eaten alive by raging jaws  
The hooks in breasts of Mother Earth  
By the pure space cannibals  
Error has get cleaned now, folks
