

Tabitha's Secret, And Around

You say adjust your heels girl
They stick out like an anchor
Don't touch the flowers
Cuz you can't hear them well
Couldn't last forever
Lord ya know it's gonna end sometime

This is not an order
You don't have to be here
Can you understand me
Screamin like the wind blows

Did I blow your mind
Leave you, breathless

And I guess I've changed, yeah couldn't you
Given all we've been through, well
Heaven knows I've, been around and around

Eighty six the candles
I'm scared of the bright lights, and
Girl, try not to touch me
So you don't feel me, or
You can touch my shoulder
Put your lips to my ears
And scream is there anyone home
Won't you answer me, yeah

And I guess I've changed, yeah couldn't you
Given all we've been through, well
Heaven knows I've been around and around

And I guess I've strained well, how bout that
Here's my life at the doorstep, well
Heaven knows I've been around and around

Well, I guess it's been a good year
For roses and aggressions
For flowers and freeways

I guess I'll put a smile on
Or get a new girlfriend
Yeah put a new hat on, on her

And, this is not an order
You don't have to answer
Only need to listen
If only for a moment, well

Did I blow your mind, did I
Leave you breathless
I said

And I guess I've changed, yeah couldn't you
Given all we've been through, well
Heaven knows I've been around and around

And I guess I've strained well, how bout that
Here's my life at the doorstep, well
Heaven knows I've been around and around

Cuz I've been around and around
Cuz I've been around and around
Cuz I've been around and around

I've been around and around
