

Taff Russ, He Came Through

HE CAME THROUGH

By Russ Taft

Picture Moses by the red sea shore

Pharoah knows they can't run no more

Water way too deep and wide

They can't swim, and they can't hide

Though he was just a man, Moses raised his hand

And the Lord came through,

He heard their cry

When hope was gone,

He turned the tide

You can shake your head,

But you know it's true

When there was no other way,

The Lord came through

King Darius and all his men

Tossed poor Daniel in the lion's den

He'd (done no crime but he had to pay)

For praying to the Lord three times a day

At the break of dawn they came looking for his bones

But the Lord came through, (but the Lord came through)

And pulled him out (and pulled him out)

He tamed those cats (He tamed the cats lions)

And shut their mouths (and shut their mouths)

You can shake your head, (you can shake your head)

But you know it's true (but you know it's true)

When there was no other way,

The Lord came through

Those stories gathered dust up on the shelf

Till I fell into a trap I'd made myself

All my struggle only brought me pain

And I knew that I could never break those chains

But the Lord came through, (but the Lord came through)

He rescued me (He rescued me)

He broke the lock, (He broke the lock)

And set me free (and set me free)

You can shake your head, (you can shake your head)

But you know it's true (but you know it's true)

When there was no other way,

The Lord came through

He always does (He always does)

With His power (with His power)

With His love (with His love)

You can shake your head (you can shake your head)

But I'm delivered through - yes I am

When there was no other way,

The Lord came through

The Lord came through

Yeah
