

# Taff Russ, I Cry

When peace cannot be found  
and sleep won't visit me tonight  
A restless mind that I can't tame  
I walk the floor, I call your name  
Finally silence, and the tears begin to fall  
Chorus:

I cry and you're the one who hears me calling  
I fall so easily, but you're there to catch me  
Say the words that heal me  
I'm safe with you  
You touch my eyes  
I can see

Oh the comfort that you bring  
When nothing else can reach inside  
Sympathetic friends are all around  
Their soothing words fall to the ground  
But in the silence I feel you here with me  
(Chorus)

Say the words that heal me  
I'm safe when I'm with you  
You touch my eyes  
I can see  
I Cry and you're the one who hears me calling  
I fall so easily, but you're there to catch me
