

Taff Russ, I Cry

When peace cannot be found
and sleep won't visit me tonight
A restless mind that I can't tame
I walk the floor, I call your name
Finally silence, and the tears begin to fall
Chorus:

I cry and you're the one who hears me calling
I fall so easily, but you're there to catch me
Say the words that heal me
I'm safe with you
You touch my eyes
I can see

Oh the comfort that you bring
When nothing else can reach inside
Sympathetic friends are all around
Their soothing words fall to the ground
But in the silence I feel you here with me

(Chorus)

Say the words that heal me
I'm safe when I'm with you
You touch my eyes

I can see

I Cry and you're the one who hears me calling
I fall so easily, but you're there to catch me
