

# Tahiti 80, Don't Look Below

You taught me how to do  
All the things, now you seem  
to be a part of me

I know it's just part of the game  
To go back and start again,  
still it ain't so easy

It's inside me

When, when you're ready to, I'll come up to you  
I'll take you for a walk with me

To a place that's not real,  
Where we can heal, all the things inside  
you and me

All the things inside you and me

It's hard to tell where this road will go  
No matter what they say, don't look below

What's going on?  
I don't know what is right or wrong

It's hard to tell where this road will go  
No matter what they say, don't look below
