

# Take 5, Can I Come Over

I know it's late, but baby my love won't wait  
I've got to get with you, got to be next to you  
Right now baby, so don't tell me you're tired  
I'll wake you up with sweet desire  
Talking just won't do, I need to see you

(chorus)

Can I come over and hold you  
All through the night  
Can I come over and show you  
What I got on my mind  
Can we get closer and closer  
Til I feel your heart next to mine  
Can I, can I, can I come over tonight

We can dance slow,  
to the slow songs on the radio

We could be staying up,  
until the sun comes up  
All night baby,  
so don't tell me you're tired  
Cause I just can't put out this fire  
I don't wanna sleep,  
want you beside me

Repeat chorus

We can talk til the morning,  
I can love you all night  
I don't care what we do, as long as I  
Can spend this night with you, with you

Repeat chorus x3
