

# Take 5, Jump Up

Chorus:

Jump up and down  
Everybody's getting' down with this sound  
When the music takes you around  
Let the rhythm take you off the ground, hey

Your day job's got you sad  
Somebody made you mad  
It seems like everyday's the same  
You feel like going out  
Partying with a crowd  
Sometimes you got to break the chain  
Pre-Chorus:  
And everybody wants to get down

Forget the everyday ups and downs  
Cause when you hear the beat  
You just get off your feet  
And join the party  
(Chorus)  
If you got lots of time  
But you ain't got a dime  
To do the things you'd like to do  
Turn on the radio  
Dial up a funky show  
And listen for somebody new  
(Pre-Chorus)  
(Chorus)
