

Take That, Get Ready For It

Get ready for it
Get ready for it
You said, whatever you put out there,
Whatever you put out there
is gonna come back
You said, whenever you are ready,
Whenever you are ready
Just let it all out
I know, cause the enemy inside me,
Cause the enemy inside me
Is holding me back
But we know, there's something in the silence,
There's something in the silence
Get ready for it
Get ready for it
You said there's only one place left to find
Together we can save the world tonight
Get ready for it
You said, every life is a lesson,
Are you a fool or a kingsman
Cause only you know
Hold on, cause the volume is rising,
Yeah the volume is rising
So you better hold on
The night is young
Until it's over, until it's over
The night is young
The night is ours,
Until tomorrow, until tomorrow
Get Ready for it
Yeah, Get ready for it
You said there's only one place left to find
Together we can save the world tonight
Get ready for it
Get ready for it
Get ready for it
Get ready for it
The night is young
Until it's over, until it's over
The night is young
The night is ours,
Until tomorrow, until tomorrow
Get ready for it
I'll hold your hand
With good intentions, with good intentions
I'll hold your hand
The night is ours,
Until tomorrow, until tomorrow
You said there's only one place left to find
Together we can save the world tonight
Get ready for it
Get ready for it
Get ready for it
Get ready for it
Get ready for it
