

# Take That, Giants

We're giants  
Can't believe it  
We're giants  
All along  
On the surface  
And all around us  
We're giants  
We're strong  
I see you standing  
Se you dancing  
Giants  
Can you feel it?  
So much bigger than we thought

I think I might be heading out of body  
I've gotta love  
You've gotta love somebody

When I look into your eyes  
I'm bigger than the night sky  
As high as the Sun  
High as a storm  
We're giants /3x

There are giants actress the water  
There are giants heading home  
In the middle of the madness  
There are giants being born

I feel like braking the \_\_\_\_ glory  
I've gotta love  
You've gotta love somebody

When I look into your eyes  
I'm bigger than the night sky  
As high as the Sun  
High as a storm  
We're giants /3x

We're giants  
In our hearts  
We're giants  
Every one of us  
We're giants /2x
