

# Take That, Hate It

Hate it but I love her  
Hate it but I want her  
Feeling like I need her  
Our love, our love was true

This is the time I feel it  
Here in the middle of the night  
Still wide awake and feeling cheated  
From a girl I thought was treating me right

Hate it but I love her  
Hate it but I want her  
Feeling like I need her  
Our love, our love was true

Gotta get away from the feelings I had  
Be real you won't be seeing her again  
It's complicated when you're feeling so bad  
And your girl is still walking away

Hate it but I love her  
Hate it but I want her  
Feeling like I need her  
Our love, our love was true
