

Take That, This is life

In this life, you can try
But it won't stop challenging you
It won't stop challenging you
Rainy days, big mistakes
Losing love and singing the blues
When you can't stop singing the blues

When you make plans they never work
They never work
It feels so good until it hurts
But when it hurts
It's time to tell you, baby

This life ain't no bed of roses
This life will take everything that you've got
In this life, there's no second chances
Make this life yours

Stormy seas
Thinking you've found your feet
Then you lose your way
When you can't stop losing your way
Hoping for second chances
Bracing for bumpy landings
Always the hardest race
You can't stop running that race

When you make plans god laughs at you
God laughs at you
You sing but you can't hear the tune
When you can't hear the tune
It's time to tell you, baby

This life ain't no bed of roses
This life will take everything that you've got
In this life, there's no second chances
Make this life yours
No way tomorrow is golden (Tomorrow is golden)
A new day can be anything that you want
'Cause this life belongs to no other
Make this life yours

But while we're here on this Earth
We need to make it all work
Just try 'cause I
Can help you find
Your place in this life

This life ain't no bed of roses (This life)
This life will take everything that you've got
In this life, there's no second chances
Make this life yours
There's no way tomorrow is golden (Tomorrow is golden)
A new day can be anything that you want
'Cause this life belongs to no other
Make this life yours

Yeah, this life
This life will take everything that you've got
In this life, there's no second chances
Make this life, make this life yours
There's no way tomorrow is golden
A new day can be everything that you want
'Cause this life belongs to no other

Make this life yours
