

# Take That, Up All Night

Sometimes I see your face looking at me  
All your love and grace smiling at me  
All the things we had and never understood  
At times it cuts me up thinking of you  
All the hope has gone wasted on you  
All the talks we had never did no good

Oh maybe I don't need you to save me  
I just want you to help me cos you're keeping me up all night  
I'm so tired of waiting  
Waiting here for nothing  
I should be up all night with you

Pour another glass  
WHile I watch the bottle disappear  
While I watch the morning light appear  
Thinking about you

Oh maybe I don't need you to save me  
I just want you to help me cos you're keeping me up all night  
I'm so tired of waiting  
Waiting here for nothing  
I should be up all night with you

Oh maybe I don't need you to save me  
I just want you to help me cos you're keeping me up all night  
I'm so tired of waiting  
Waiting here for nothing  
I should be up all night with you

I met this girl last night and she said  
'Why won't you marry me?'  
He met this girl last night and she said  
'Why won't you marry me?'

But I'm too young for that  
Too dumb for that  
Too broke for that  
Too tired for that  
Too proud for that  
And I'm too gone for that  
Would you like to come back to my flat?

Oh maybe I don't need you to save me  
I just want you to help me cos you're keeping me up all night  
I'm so tired of waiting  
Waiting here for nothing  
I should be up all night with you

Oh maybe (oh maybe) I don't need you to save me  
I just want you to help me cos you're keeping me up all night  
(why don't you do that for me?)  
I'm so tired of waiting  
Waiting here for nothing  
I should be up all night with you

Come on just say you'll stay
