Take That, Whatever You Do To Me

I'm mad at you, because af all the things you do I want you to see the way your games are hurting me So why did I ever fall in love with you You're all of my nightmares and dreams come true

What can I do to make you talk this problem through You said you've nothing to hide So let me hear your feelings inside I never dreamed that I'd see this kind of thing in my life So baby, plase let me go, let me go

Whatever you do to me Somebody else will do to you However you break my heart Somebody else will break yours too

All I can see are staring eyes of mistery I've tried to look behind before you take my dignity and pride We sit and talk all night, still you never seem to lose your height You believe in yourself, I hope I'm never gonna need your help

Whatever you do to me Somebody else will do to you However you break my heart Somebody else will break yours too

You don't want me, you don't need me, I got news now Cos baby I'm watching you

Whatever you do to me Somebody else will do to you However you break my heart Somebody else will break yours too
