

Take The Crown, La Resistance (Revolution)

We've let this go to far, if your gonna wear that mask and hide behind it,
If your gonna fake the feeling..
It's time we start to show the side of you they need to see,
You've left your past behind along with all your dignity

We are the face of change
So you wont forget our name, we're calling you out

This ain't your revolution, your time is far past over
This is our resolution, we're slowly taking over
Now your drowning in, "the river";
You were baptized in

They're starting to catch on, your contradicting your own anthems,
all the lines that you've been stealing
Make you just a "Local Product";
You'll be the ones they all forgot of
Better think of a new gimmick
cuz noones buying it

We are the face of change
So you wont forget our name, we're calling you out

This ain't your revolution, your time is far past over
This is our resolution, we're slowly taking over
Now your drowning in, "the river";
You were baptized in

We are the face of change
So you wont forget our name

If you stand for nothing then you'll fall for anything
If you stand for nothing then you'll fall for anything

This ain't your revolution, your time is far past over
This is our resolution, we're slowly taking over
Now your drowning in, "the river";
You were baptized in

If you stand for nothing then you'll fall for anything (We are the face of change)
If you stand for nothing then you'll fall for anything (We are the face of change)

If you stand for nothing then you'll fall for anything (We are the face of change)
If you stand for nothing then you'll fall for anything (We are the face of change)
