

Take The Crown, Ride Or Die

Let's see are we unconscious now?
For the last time don't say it's over, it's not over
And there's a lot of pride written on this line
It's not too hard to find, hard to find this time

The kids knew all about us all along
And you've known all about us all along

This is very unexpected, un-ordinary
I must be dreaming
Don't wake me up

Hold on I think we did it again, did it again
This time,
They stood there speechless and overwhelmed
And there's a lot of dime riding on this sign
We've placed our bets and going big or going home

The kids knew all about us all along
And you've known all about us all along

This is very unexpected, un-ordinary
I must be dreaming
Don't wake me up

The kids knew all about us all along
And you've known all about us all along

This is very unexpected, un-ordinary
I must be dreaming
And I must be dreaming

This is very unexpected, un-ordinary
I must be dreaming
Don't wake me up

This is very unexpected, un-ordinary
I must be dreaming
Don't wake me up
