

Taken By Trees, Lost And Found

I took myself out walking
By the evening i was running
I hadn't done this for a long while
My friend said cheer up it was high time
But can't you see i'm lovesick?
I need a cure so bring it real quick
This time i'm fearing heartbreak
Look at the time it's almost daybreak
Oh i don't want to settle down
I don't want to leave this town
I'm feeling lost and found
Am i wild, wild, wild, wild, wild?
Oh i am most dissatisfied
You can tell this looking in my eyes
She looks like a lovely piece of art
But pills plus miles tear us apart
Oh, oh, oh, oh
Took myself out walking
By the evening i was running
I hadn't done this for a long while
My friend said cheer up it was high time
Can't you see i'm lovesick?
I need a cure so bring it real quick
This time i'm fearing heartbreak
Look at the time it's almost daybreak
Oh i don't want to settle down
I don't want to leave this town
I'm feeling lost and found
Am i wild, wild, wild, wild, wild?
Am i wild, wild, wild, wild, wild?
Are we wild, wild, wild, wild, wild?
