

# Takida, Ponder

I know the days, the days when I fall, I been down but I'm seeking  
It seems like you're there, to carry me home all the way home  
Go troubles away, It's not enough, hold me now cause I'm dreaming  
When everything goes by, will you help me love?

Will you help me love? x4

Come as you are, and tell me it straight, you're in tears but I need it  
I found a sin of my own, will you help me love?

Will you help me love? x4

When I runaway I feel that way again  
Come time when I find a way to take this pain away

Come on!

When I runaway I feel that way again  
Come time when I find a way to take this pain away  
When I runaway I feel that way again  
Come time when I find a way to take this pain away
