

Talib Kweli, We Know - Faith Evans

[Intro - Talib Kweli]

Hey Y'all

I feel good right? (mmm...hmmm...)

Yeah, ok, uhh..

Now what that make me talk about?

Love, love, love, love...[echoes]

Yeah, that's what the world need, ha

Yo, that's what your girl need

All right, we gon' put it down like this

I'll tell you about myself

[1st Verse - Talib Kweli]

My name is Kweli and I love to spit it homie

I rap about love and life, ladies get to know me

If you feelin' lonely, I can be your one and only

I put it out in the world, so people show me... love [echoes]

Yeah, I always get it back

This ain't no pimp game here, that's a different track

We talkin' this and that, we need to get with this

I keep it realer than most, this is our business

[Chorus - Faith Evans]

What we gotta do to make them see

We got a good thing going on

Wanna tell the world if they don't know

That what we have is real

Wanna shout it from the mountains baby

That I love you, but if they don't hear me

I know, you know, we know

[2nd Verse - Talib Kweli]

Heheh, yeah..

Yo, hey baby look like you need a break tonight

Let me make it right, baby won't you stay the night

I got a lot of love as you know you're my favorite right?

Hey my lady, what we gon' make tonight (our love...)

That's the dream, but I never sleep

Across the crowded room, our eyes forever meet

But without doubt and gloom, 'cause we can never be

That's why I got to go, 'cause you're my impossible love

Your the horizon I can see but never ride off into

I write my lyrics to you, you the perfect instrumental

I sound better than the cat who rappin' to you now

That's between me and you, what happened to us now?

Got you hopin' for the glorious

Waitin' for that victorious feelin' wanted by all of us

Kneelin' and praying that the lord in us will help us love ourselves

So much that the confidence attract to someone else

[Chorus - Faith Evans]

What we gotta do to make them see

We got a good thing going on

Wanna tell the world if they don't know

That what we have is real

Wanna shout it from the mountains baby

That I love you, but if they don't hear me

I know, you know, we know

[3rd Verse - Talib Kweli]

Yo, Rockin' Los Angeles, House of Blues in Sunset

Performin' like an orgasm, my girl ain't even cum yet

Seen her by the side of the stage givin' me energy

Potentially, wife material connectin' mentally
I felt like heaven sent for me, you're meant for me
The doubters and the haters had to acknowledge eventually
You was a non-believer too if memory serves
And a heart that gives shit, tryin' to play your boy for the her
The harder that I run to you, the farther you become
It's like my heart was part of some movie that hadn't yet begun
This woman moves me and I'm a mountain of a man
You pull me in like the waves do the grain of sand (love, love, love...)
Yeah, I love the way you bring it to me
I wrote a song for you, I love to hear you to sing it for me
And let the melody carry me through the jealousy
And we can cruise like Tom and Phenelope

[Chorus - Faith Evans]
What we gotta do to make them see
We got a good thing going on
Wanna tell the world if they don't know
That what we have is real
Wanna shout it from the mountains baby
That I love you, but if they don't hear me
I know, you know, we know
[Repeat 2x]
