

# Talisman, Lost In The Wasteland

Comes a time when u feel like u need  
A little time away

Got 2 leave this situation  
Fix me with a new sedation

(Chorus:)  
Lost in the wasteland - I could be anywhere  
Gone in my haven - don't even really care  
Lost in the wasteland - I really need 2 elude this nightmare

Got a grip, got control what 2 do where 2 go  
A little sanctuary, solitary's all I want 2 know

Take a ride 2 another lifetime  
Say goodnight 2 your nasty deadlines

(Chorus)

(Solo)

Dim the lights, close your eyes take a drift  
Into my blissful garden

Got 2 leave this situation  
Fix me with a new sedation

(Chorus x2)
