

# Talk Show, So Long

(D. Coutts)

Settle down you know you got a ways to go  
Moving slowly gets you by  
Settle down now - You'll be around now  
After all your flowers die

Trees grow from the silence of the earth and never speak  
Thoughts that come from underneath are pure and never weak

And you have lived for so long  
You have lived for so long

Have regrets you will, it's only natural  
Have them till the day you die  
Having doubts now,  
You'll come about now  
Birds always fall before they fly
