

Tam Tam Go, Spanish Shuffle

Spanish Shuffle drives me mad
Every morning I must wake up
Early papers, have a coffee
Sleeping workers, crowded offices

Have you ever thought about just giving up?

Spanish Shuffle makes me blind
It's like a fix of brand new air
Top bull fights, matadores, politicians, new great choices

Have you ever thought about just giving up?
By the way...

The streets are ready
Your car is ready
The fine is ready
You must be ready
The church is ready
The bride is ready
The priest is ready
You must be ready
The house is ready
Your suit is ready
Your hat is ready
You must be ready
The streets are ready
Your life is ready
The game is ready
Is your mind ready?

Spanish Shuffle knocks me out
It's so false, it's so proud
lots of friends, and lots of objects
in the morning many projects

Have you ever thought about just giving up?

Spanish Shuffle don't you know it?
It's a fashion, it's a show
Have a wine and get a wife
If you like you can have mine

Have you ever thought about just giving up?

The streets are ready
Your car is ready
The fine is ready
You must be ready
The church is ready
The bride is ready
The priest is ready
You must be ready
The house is ready
Your suit is ready
Your hat is ready
You must be ready
The streets are ready
Your life is ready
The game is ready
Is your mind ready?
