

# Tame Impala, Patience

Has it really been that long?  
Did I count the days wrong?  
Did we just go back  
All the way to step one?

People ask me all the time  
Every time the show's up  
"So what you doin' with your life?"  
It ain't giving up

just growing up in stages  
living life in phases  
another season changes  
and still my days are shapeless

I should be flying straight  
don't be late  
cause time waits for no one  
I should be flying straight  
don't be late  
cause time takes from everyone

waiting for away  
to come  
take us to place  
taking us before you gone

People ask me all the time  
Every time the show's up  
"So what you doin' with your life?"  
It ain't giving up

just growing up in stages  
living life in phases  
another season changes  
and still my days are shapeless

I should be flying straight  
don't be late  
cause time waits for no one  
I should be flying straight  
don't be late  
cause time takes from everyone
