

Tamia, Can't No Man

Mmm, mmm, mmm yeah
Oh oh ohh, ooh ooh

I can't let you go babe
I don't think that I could (I never could)
Cuz everytime I try to forget you
I think about the sex is too good (yeah)
The way you hold my body babe
There's no other man that could
And even if he tried to turn me on
I don't think that he would, yeah

Can't no feet fill your shoes
Ain't no other man can rock me like you do
They can try to huff and puff and blow you down
But when we make love baby, you mark your ground

Can't feet fill your shoes
Ain't no other man can rock me like you do
They can try to huff and puff and blow you down
But when we make love baby, you mark your ground

Everytime we argue babe
I just wanna give up
But when I see your face babe
I just wanna make up
Cuz there's no other man
That be pleasing me
And not only are you incredible
Baby I'm in L-O-V-E, yeah

Can't no feet fill your shoes
Ain't no other man can rock me like you do
They can try to huff and puff and blow you down
But when we make love baby, you mark your ground

Can't no feet your shoes
Ain't no other man can rock me like you do
They can try to huff and puff and blow you down
But when we make love baby, you mark your ground

I'm just so caught up on you
I just don't know what to do
I can't get enough of you
I'm gon' spend my life with you
Baby can't you feel it too
The love between me and you
Baby you come mark your ground
Baby I won't turn you down

I'm just so caught up on you
I just don't know what to do
I can't get enough of you
I'm gon' spend my life with you
Baby can't you feel it too
The love between me and you
Baby you gon' mark your ground
Baby I won't turn it down

Can't no feet fill your shoes (Can't nobody)
Ain't no other man can rock me like you do (No, No, No, No)
They can try to huff and puff and blow you down
But when we make love baby, you mark your ground (When we make love)

Can't no feet fill your shoes
Ain't no other man can rock me like you do
They can try to huff and puff and blow you down
But when we make love baby, you mark your ground(Ohh, Yeaaa)
