

Tamia, Make Tonight Beautiful

I've been waiting to taste your kiss
Touch you in the dark, hold you to my heart
I've been hoping for that moment we'd be making love
Now the time has come, come with me, tonight
Share my dreams change my life

Chorus:

Make tonight beautiful (beautiful)
Make tonight something more
Than any night I've ever known (yeah)
In my life before
Make it beautiful baby (make tonight beautiful)
Hold me close and don't let go
Lay with me and stay with me, tonight
Make tonight a beautiful night, ooh

Turn the lights down tonight
There's a world of love waiting there for us
Let me take you yeah, to that place you've never been before
Open up the door to a dream, come true
Take my hand
And show me how to make

Chorus:

Make tonight beautiful
Make tonight something more
Than any night I've ever known, in my life before
Make it beautiful baby (make tonight beautiful)
Hold me close and don't let go
Lay with me and stay with me tonight
Make tonight a beautiful night, ooh

Come show me all the magic the night can bring
You see you're my door to heaven, you're all I need
I've waited all my life, to look into your eyes
So stay with me, make love to me,

Chorus:

Make tonight beautiful (make it beautiful)
Make tonight something more (baby make it something more)
Than any night I've ever known, in my life before
Make it beautiful (make it beautiful)
Hold me close and don't let go
Lay with me and stay with me tonight
Make tonight a beautiful night, ooh

Chorus
