

Tamia, Officially Missing You (Remix)

(Talib Kweli)

Yeah yeah

Now everytime we walk up in the spot the corks pop

We got the floor hot, we gonn' to rock 'til 4 o'clock

We used to keep a trick up my sleeve to get a chick to leave

But now we've got another one of them calling me

All eyes on you when you walk by

Your guy is doing stunts like the four guys

(Come on) All I know you make me feel like six million dollars, star tonight

The type to make every nigga holla

(Tamia)

All I hear is raindrops

Falling on the rooftop

Ooh baby tell me why'd you have to go

'Cause this pain I feel it won't go away

And today

I'm officially missing you

I thought from this heartache

I could escape

But I fronted long enough to know

There ain't no way

And today

I'm officially missing you

(chorus)

Ooh... can't nobody do it like you

Said every little thing you do

Hey baby, say it stays on my mind

And I, I'm officially...

(Tamia)

All I do is lay around

Two ears full tears

From looking at your face on the wall

Just a week ago you were my baby

Now I don't even know you at...

Don't know you at all

Well I wish that you would call me right now

So that I could get through to you somehow

But I guess it's safe to say baby, safe to say

That I'm... officially missing you

(Talib Kweli)

You know what? Yo

Baby be giving me the proper dance

Now that I'm the man

These cats stand no type of chance

Come close enough to show you how we supposed to love

You know they say we can't smoke in the club

But I'm cool 'cause your love is like a potion, a drug

These emotions got me open like buds

Of roses, club closes and I'm headed home wit' you

You know when you're going, I'm gonn' miss you

It's so official, oh!

(Tamia)

Well I thought I could just get over you baby

But I see that's something I just can't do

From the way you would hold me

To the sweet things you told me

I just can't find a way

To let go of you

(chorus)
Ooh... ain't nobody do it like you
Said every little thing you do
Hey baby, say it stays on my mind
And I, I'm officially... missin' you

(Tamia)
Ohhh
You know that I'm missing you
Yeah yes
All I hear is cold raindrops
Ooh yeah
And I'm... officially missing you
