

# Tamia, Things I Collected

Verse 1:

I don't need another long talk  
about what's wrong with you and me  
And I don't need another conversation  
about the way we're supposed to be  
Now I see that you're gone  
and I don't believe after everything  
I have to get over you

Pre-chorus:

How could you make me love you and then just walk away  
Like you never did a thing to lead me on in any kind of way  
How could you make me feel so helpless every day  
From the path you laid before me  
These are things I collected along the way

Chorus:

I got tears in my eyes sometimes and I got a bad case of sleep less nights  
And I got holding you on my mind and I try to think of ways I can get you back all the time  
Oh baby, that's a lot of weight to carry every day  
But these are things I collected along the way

Verse 2:

Everytime I think about it I hate it in every way  
Said I thought I couldn't live without you  
but I live with it every day  
Never thought I'd see the day that you would ever leave  
But now I'm here sifting through memories

Pre-chorus X1

Chorus:

I got tears in my ears sometimes and I got a bad case of sleep less nights  
And I got holding you on my mind (holding you all the time)  
And I try to think of ways I can get you back all the time (I gotta get you back in my life)  
Oh baby, that's a lot of weight to carry every day (that's a lot of weight to carry, lot of weight to carry)  
(all the things I collected along the way)

Chorus:

I got tears in my ears sometimes and I got a bad case of sleep less nights (I don't think you know w  
And I got holding you on my mind (holding you all the time)  
And I try to think of ways I can get you back all the time (I gotta get you off my mind)  
Oh baby, that's a lot of weight to carry every day (that's a lot of weigh, lot of weight to carry)  
(These are things I collected along the way)

Instrumental bridge

Chorus:

I got tears in my ears sometimes {I cry} and I got a bad case of sleep less nights(I got a bad case)  
And I got holding you on my mind (all I wanna do is hold you)  
And I try to think of ways I can get you back all the time (all the time)  
Oh baby, that's a lot of weight to carry every day (that's a lot of weight to carry everyday)  
(these are things I collected along my journey)
