

Tammany Hall NYC, I was hopin'

i like it as your boyfriend.

i like it cause i'm special when i get to be with you.

i liken you to sunshine which brightens everything.

you're as moving as a song.

a song i'd like to sing.

i was hoping we could just spend a night at home.

cause i've been coping being on my own.

i've seen your many angles.

i've tasted of your fruits and i know you've tasted mine.

so what we do now are we done now

are we ever gonna be a something like a "you and me";

i was hoping we could just spend a night alone.

cause i've been coping burning out being on my own .

so we're taking a chance 'cause we've cornered romance

and all i am hoping to see in your eyes

you're hoping for me.

i was hoping we could just spend a night alone.

'cause i know i've been coping burning out being on my own.

i was hoping you would kiss me and say "it's alright";

i was hoping for tonight.
