

Tammany Hall NYC, Wait For You

Evening settles in the room
Shadows vanish with the afternoon
Contemplation fills the air
I am attached to my despair
Maybe you, if ever you'd come
And rescue me from my daily evening doldrums
I guess thats why I wait for you
Thats why I wait for you
Thats why I wait for you
I wait for you
God knows my job will beat me down
Like asphyxiation fills my will to drown
Seemed like melodrama when this began
But melodrama gets real when you're livin' it, man
I guess thats why I wait for you
Thats why I wait for you
Thats why I wait for you
I wait for you
Maybe that sun will shine
I'll wake up and find you calling
Maybe my last despite
You lift me up when I'm
When i'm falling
So I want to
Wait for you
That's why I wait for you
That's why I wait for you
I wait for you
