

Tammin Sursok, It's A Beautiful Thing

Am I losing my mind
You're everywhere and I don't know why
Something I can't deny
On and on like a song in my head
And I can't do a thing about it

When your heart can't stop
Like a runaway train
And love walks in like a hurricane
It's a beautiful thing

When it feels so good
That you can't let go
When you're so far gone
Cos you couldn't say no
It's a beautiful thing

I keep hearing your name
It's in the sun and it's in the rain
I just heard it again
Don't know how it got into my head
But I don't wanna be without it

When your heart can't stop
Like a runaway train
And it feels so good
That you can't explain
It's a beautiful thing

When you just can't do
Without anything else
And you give so much
That you lose yourself
It's a beautiful thing

Hope this feeling never goes away

When you lose your way
Don't have a clue
And you happen to find somebody like you
It's a beautiful thing

When you're on the moon
And you can't get down
Just me and you
No-one else around
It's a beautiful thing

When your heart can't stop
Like a runaway train
And it feels like you've drunk a case of champagne
It's a beautiful thing
It's a beautiful thing
It's a beautiful thing
So beautiful
