

Tammy Cochran, Love Won't Let Me

What I should do is play it cool
in front of you and I just might
fool ya for a minute or two.

But what I can't hide
is everything I feel inside
Cause the truth is baby my heart
starts racin when I'm next to you.

(Chorus) And Love won't let me,
not go crazy when you come around
go insane when we get a little closer now
I'd be inclined to chicken out, but love won't let me
Love has a funny way of gettin you in
somethin that scares you but you can't resist
I'd let you leave without a kiss, but love won't let me.

So I took that step, now I'm over my head,
And now I'm circling earth and I'm pretty sure
I won't be comin down for awhile.

But the trouble is ever since that little kiss
I don't care how late it gets
don't wanna let you out of these arms of mine.

(chorus)

Now I, I only wanna spend my time
holdin you tight, every night
Baby everytime I think about us
I've loved you from the day we met,
The way you get me
I'm so glad that love wouldn't let me

not go crazy when you come around
go insane when we get a little closer now
I'd be inclined to chicken out, but love won't let me
Love has a funny way of gettin you in
somethin that scares you but you can't resist
I'd let you leave without a kiss, but love won't let me
No, No Love won't let me
