

Tammy Trent, All About You

You say that forever without me
Is what led You to lay down your life
You've shown me Your love knows no boundaries
And my life's worth the highest price
So I pray this world sees You when they look at me cause...
It's all about You
It's not about me
It's all about living life
So You're all that they see
Without You
Where would I be
I give you all the glory Lord
Believe me it's all about You
You say that you love me like family
Much more than words can describe
You've showered Your grace all around me
So how could I hold onto my life
Oh I pray You understand this is straight from my heart
Chorus
Loving You with all my heart
From now til my final day
I've found my life in giving it away
