

Tammy Trent, In Need Of Love

Sometimes life can be a tricky thing
When you're not looking
It can pull the rug from under your feet
Some days I know you can get so tired
Walking a high wire
With nothing down beneath
Well, everybody's human
You and me, we all go through it
Let me tell you
If you need a love
That can burn like the sun and in the darkness
Become a fire to lead you
If you need a break in the weather
A change for the better
You know you can call on God above
If you need love
So just remember when your heart breaks
And your world shakes
You don't have to do it alone
Even when the record player stops
That don't mean a lot
'Cause there's someone who knows that
Everybody's hurting
So take my hand it'll be worth it
Come on now
Take a leap of faith now
Don't you be afraid
Ask Him to reveal His love
Just as plain as day
There is nothing like it
But you gotta try it
You'll be okay
You'll be alright
You can sleep at night
