

Tammy Trent, New Life

Floating around to find my own ground
Fell into You this is when I knew
The flooding of rain it's what made the change
Now I can see all the colors in me
Oh I love your sun shining on me
I can feel your wind blowing softly
Can you see my spirit blooming
New Life has just begun in me
Beauty will fall oh like nothing at all
Standing in truth it will carry me through
When Winter gives in then I will begin
To Spring up and say what a beautiful day
Chorus Repeat
I'm coming to life again
I'm coming to life again
I am starting to breathe again
