

Tammy Wynette, Don't Liberate Me (Love Me)

Today a group of women came to see me to convince me women don't have equal right
And they left when I told them I feel equal to an angel
While my man holds me at night
My man he treats me like a lady and he's gentle as a gentleman can be
So I do everything I can to please him
Cause my man works hard and takes good care of me
Don't liberate me just love me cause I'm as free as I ever thought to be
Don't liberate me just love me some women can't understand
There's more than one difference in a woman and a man
I'm convinced that's the way God meant it to be
So love me and don't liberate me
