

Tammy Wynette, Enough Of A Woman

When he needs arms to hold him mine are always there
When he needs lips to kiss him mine are always near
And when he needs consolation my voice is loud and clear
I wanna be enough of a woman to please my man

Young enough to tease him
old enough to please him
I wanna be enough of a woman to hold my man

His moods are many he changes with the wind
Like a little boy one minute the next a big strong man
I understand him like a mother and love him like a lover
I wanna be enough of a woman to please my man
Young enough to tease him,
old enough to please him,

I wanna be enough of a woman to hold my man
I wanna be enough of a woman to hold my man
