

# Tammy Wynette, It's Been A Beautiful Life (Loving You)

Darling I've loved you all of these years  
And you've never once caused the heartbreak or tear  
Without you to love me oh what would I do it's been a beautiful life loving you  
And darling I love you more every day and I'll stand beside you each step of the way  
You've made it heaven my dreams have come true it's been a beautiful life loving you  
If ever I need you you're always there life is much sweeter knowing you care  
Always together till life is through it's been a beautiful life loving you
