

Tammy Wynette, One Final Stand

The love the I used to see whenever you looked at me just ain't showing
I can tell something's wrong and I know before long you'll be going
And baby your tender touch the one I loved so much is not there anymore
Oh I wish we could find what we had one time and love like before
If it's a matter of pride then let's push it aside and get together
And if I'd give to you love light you want me to will it matter
There's so much love in my heart like this been from the start
And it's always begged for you
How make one final try if it don't work for you and I then I'll say goodbye
Yes I'll make one final stand to hold more than I can to the one I've loved so long
I'll make one final stand with my heart and my hand cause I love you right or wrong
But if you choosed to go then I'll want you to know I've done everything I can
Though my life may be hell still I wish you well I've made one final stand
