

# Tammy Wynette, Only Thing

I've made many mistakes in my lifetime  
The foolish things I've done have might been few  
But the only thing I've ever done worth doing is all in love with you  
I've wasted many a tear in my lifetime on foolish dreams that never could come true  
But the only thing I've ever done worth doing is all in love with you  
Because of you I changed my way of living because of you my lifetime changed a lot  
The only thing worth having is worth giving the best of everything you've got  
I've wasted many a day being lonely but now I know my lonely days are through  
Cause the only thing I've ever done worth doing is all in love with you  
Yes the only thing I've ever done worth doing is all in love with you
