

Tamyra Gray, God Bless The Dreamer

So many problems that you felt in your life
And it cuts like a knife
But remember to look for tomorrow
It's not long now
Put some love in your heart
Put some heart in your love
And don't let the doubt steer you wrong
There'll be something out of nothing
When love comes along

You wanna have it all
But to get to the light
Gotta get through the night
Don't let them hold you back, now
Your already there
Put some love in your heart
Put some heart in your love
And don't let the doubt steer you wrong
There'll be something out of nothing
When love comes along

God bless the dreamer
God bless the child
God bless the dreamer
There'll be freedom
Sweet freedom
When love comes along

Child just hold on to your faith
And every door will swing open
Don't throw hope away
Cuz your gonna stay
With no fear in your heart
You've got to reach for your star

God bless the dreamer
God bless the child
God bless the dreamer
There'll be freedom
Sweet freedom
When love comes along
