

Tantric, Inside Your Head

And the nights grow colder
And the days get older
And the nights grow colder

So many times
I thought
Of giving up
Better luck this time
Things aren't gonna be this way

And everything
I felt from my heart
From the start
I knew it then
I didn't have the strength to say

[Chorus:]
Turn around to the sound
Of the voice that you're flowing to
It's inside your head

If I said that I would then I could
And I shouldn't lie cause I'd end up dead

Looking up all my life
But I just saw the sky
I couldn't look beyond myself
To realize

That the pain you come from is the
Pain you go through
And you will do
Anything you can until you

[Chorus x4]

And the nights grow colder
And the days get older
And the nights grow colder

It's inside your head [Repeat x10]

And the nights grow colder
And the days get older
