

# Tanya Stephens, Put It On You

A few people between us,  
Im watchin u across the bar,  
And i think to myself "you're way too far",  
So I found a reason to come over,  
I really needed a light,  
And i just hung around for the rest of the night,  
A little light conversation, Casual Touch,  
I feel you respond to me baby,  
So I know its not too much, and i say,

Are you alone, If you are then Im alone,  
Nothing can complicate the night,  
Do you have a ride, If you got a ride then meet me in the parking lot outside,  
I'll be standing in the shadow, way outta di light,  
keep my business away from the watchful eyes,  
I can bring the rubber, already got the rubber, everything's fine,  
Now all you gotta do is RISE.

(No need to front cause I know you want it baby)  
Rise, and let me put it on you,  
(No need to front cause I know you want it baby),  
I wanna put it on you,  
(No need to front cause I know you want it baby),  
Let me put it on you, Yea,  
(No need to front cause I know you want it baby),

Well mi a watch yuh like a sniper,  
cauze mi wah yuh ride me like a biker,  
climb up pon di buff like a hiker,  
basically mi wah yuh slam mi hard like a rally rally piper,  
Caress him wid mi two hand,  
Mi have a few rubbers an a few gran,  
An mi done book a room over di hilton,  
Like Paris, mi no get embarassed,  
So yuh free fi bring di still cam.  
you alone mi a keep it one up,  
tell mi, yuh man enough?  
Yuh no haffi stone an gab up?  
Wood a fire, yuh no haffi a/c nor fan up,  
roll call, yuh hear yuh name so stan up,

Let mi put it on you  
(No need to front cause I know you want it baby)  
I wanna put it on you,  
(No need to front cause I know you want it baby),  
I wanna put it on you, woah,  
(No need to front cause I know you want it baby),  
Let me put it on you.

Wen we get skin to skin,  
mi a move toe to toe,  
Every style yuh sen on mi a let it off back,  
If even a wuk pon di side was taboo,  
Tell dem seh tonight we ago set it off bak,  
If wifey no like how mi put on a bruise pon you,  
wen mi done she fi tek it off back,  
wen mi put a likkle extra glue inna di  
stickkity,  
bet any money she cyaa get it off bak, woah.

[Chorus: until fade]
